## STYLUS PUBLISHING SYSTEM

Introducing the new Stylus Publishing System, from the leader in CD and DVD R Duplication and Publishing Systems, Condre Technology, Inc. Stylus features a robust robotic platform with a 2.8 GHZ embedded processor and an 80 GB Hard Drive, making it an out of box turn key CD and DVD burning and printing solution. No external PC is required. An intuitive GUI software interface combined with sophisticated board level technology make Stylus the most user friendly CD / DVD R autoloader system available today. A sleek desktop footprint allows Stylus to be integrated into virtually any environment including front office, back room, production or manufacturing. Most importantly, the Stylus Publishing System is available at price points that make it attractive to virtually any user in SMB, SOHO, corporate, or manufacturing organization. Call your Condre Sales Representative today for details!
